

OWNERS MESSAGE

Coming in as new owners of the Petrolia Jets part way through this season has many challenges to overcome. We are looking forward to creating a successful and exciting program for the Jets players and for the fans of the Jets. To accomplish these goals we are evaluating all aspects of our organization. We have made some initial changes, which will be the building blocks to successful remainder of the season.

The first step in this process was to change the coaching staff and start fresh from a clean slate with the players. We brought in Randy Campbell as our Head Coach and General Manager and since then he has started to assemble the remainder of the coaching staff that fits in with our goals and objectives in the short and long term.

We have gained valuable experience from owning two other sports teams, London Majors Baseball team and the Lambeth Lancers Hockey team of the SOJHL (Southern Ontario Junior Hockey League – formerly Junior D) and have had success with both of these organizations.

The equipment guys and trainers for the Jets are first rate. They have done a great job of welcoming us and working with us to create a professional setting for the players. Our frontline volunteers and booster club have been great to deal and we are working with them on implementing some of their ideas. This should help to benefit our team going forward. We want to thank all of our volunteers and coaching staff for their dedication to the Petrolia Jets.

We look forward to working with the community, fans, and our sponsors to make the Jets the number one sporting destination in the area. We hope through more promotions and community involvement that the Jets can rise up the ladder in attendance for the Junior B loop. From everyone we have spoken to we know that the town of Petrolia has been great supporters of the team in the past and we hope that we can build relationships with minor hockey and the local schools to get more young people out to the games on a regular basis. We know from past experience that the more fans that come out and cheer on the team then the better the results from the players.

Roop Chanderdat
Co-Owner & Assistant General Manager
